

## Feltes Escalator Crane and Feltes Escalator Lifting Winch

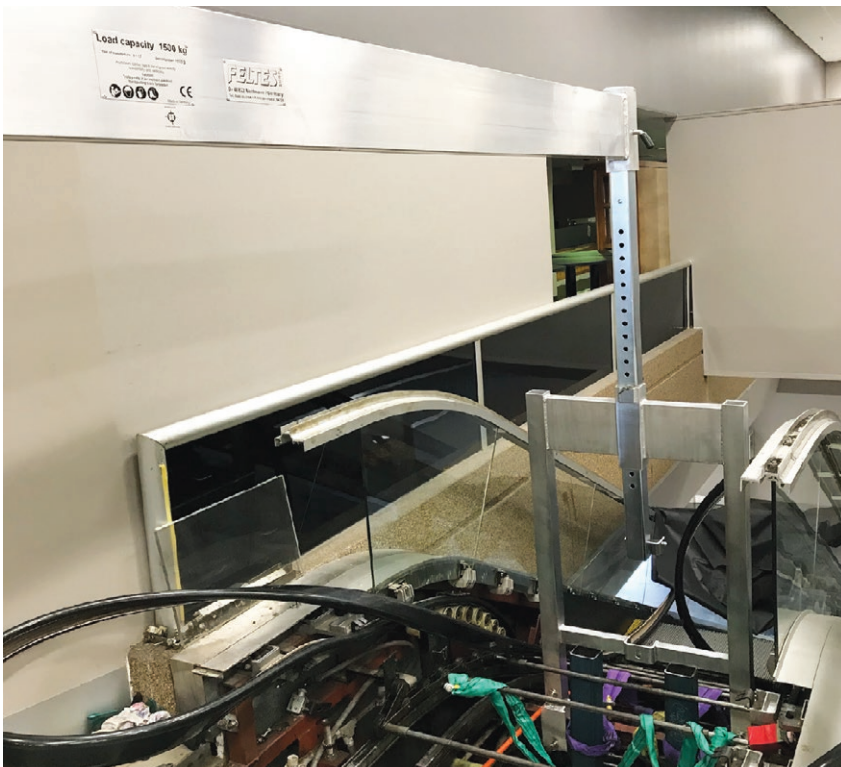

**Hasemer Materials Handling and Feltes offer products for safely and efficiently servicing escalators, with the Feltes Escalator Crane and the Feltes Escalator Lifting Winch. Both products are extensions to the Feltes Portable Gantry Crane range and are designed and manufactured in Germany. Hasemer Materials Handling are pleased to offer the full Feltes range.**

### **Feltes Escalator Crane**

The Feltes Escalator Crane is an aluminum side frame that weighs 43kg. With its slim width design of only 790mm, this unit is able to fit between the escalator and allows easier servicing of escalators. The frame has 2 x hollow "C shaped" feet, that are placed over the main chassis of the escalator and secured via a safety bolt and pin.

The Feltes Escalator side frame is modular and can be coupled with the existing Feltes product range to suit your application. This allows you to have the escalator side frame on one end with a beam size that meets your requirements (between 2m – 8m beams in 1m increments). The other end of the system is the Feltes Standard Folding Gantry Crane. The height can be adjusted between 2150mm – 3550mm and has a capacity of 1500kg.

This special side frame allows for easy maintenance of escalator motors that are positioned in confined areas.

Mounting Bracket.

## Feltes Escalator Lifting Winch

The Feltes Escalator Lifting Winch has been specifically designed for lifting switchboards inside escalators and confined spaces. With a load capacity of 120kg and 360° rotation, this unit can be easily moved with its low 15kg weight.

### How does it work?

The support bracket permanently attaches to the upper end of the escalator. The Feltes Escalator Lifting Winch easily slides into the support bracket, providing a safe and easy means for removing a controller or components up to 120kg.

Other features include:

Folds compactly for transport.

120kg lifting capacity

Brackets/hardware may be left in place, making future servicing simpler

Order extra brackets/hardware and use one lifter on several unit

The outreach of the lifting winch can be adjusted between 250-910mm and has a lifting height of 3000mm

For more information or to arrange a demonstration of the Feltes Escalator Crane or Feltes Escalator Lifting Winch, contact the Hasemer team on **(02) 9771 9848** or email [sales@hasemer.com.au](mailto:sales@hasemer.com.au).
